Skills _____

Languages	JavaScript (ES5, ES6), HTML5, CSS3, python
Frameworks & Libraries	React, Redux, React-Router, TalwindCSS, Framer Motion
Tools and Utilities	Git, GitHub, NPM, Vite, Less/SCSS, Styled Components,

Summary _____

Dedicated Junior Front-End Developer with expertise in React.js, HTML, CSS, and JavaScript. Skilled in creating responsive web applications using React Router, Tailwind CSS, Redux, and Framer Motion. Passionate about building intuitive, high-performance user interfaces and eager to contribute to innovative development teams.

Projects _____

Arch Studio Web App

Front end Project   *HTML, CSS, JS, React, ReactRouter, TalwindCSS*

• I built this using React.js, implementing React Router for navigation and Supabase as my database. Tailwind CSS was my go-to for styling, which allowed me to work on my layout skills with Flexbox and Grid. I also added some smooth animations using Framer Motion to bring the site to life. The site is fully responsive, ensuring a seamless experience across all devices

Dictionary Web App

Front-end project   HTML, CSS, JS, React Js, TalwindCSS

A React.js powered application that enables users to search and discover word definitions. Built with Tailwind CSS for sleek, responsive styling, this project helped me enhance my data fetching skills by implementing efficient API integration and state management techniques. The app provides a clean, intuitive interface for exploring linguistic meanings.

Calculator Web App

Front-end project   HTML, CSS, JS,

A calculator web app that you can do mathematical equations with, an app that helps me develop my logical and functional programming skills and create beautiful UI for the logic to be UX friendly

Note: to see more of my project visit my personal website

Education _____

Mohammed Derfofi High School
Agadir
high School Diploma

Almadrasa online School
Online
